13. **SUBCONTRACTS:** No subcontract shall be entered into by the contractor with any other party to furnish any of the material, service or construction specified herein without the advance written approval of the City. The prime contractor shall itemize all sub-contractors which shall be utilized on the project. All subcontracts shall comply with Federal and State laws and regulations which are applicable to the services covered by the subcontract and shall include all the terms and conditions set forth herein which shall apply with equal force to the subcontract and if the Subcontractor were the Contractor referred to herein. The Contractor is responsible for contract performance whether or not Subcontractors are used.

The failure of the City to insist upon the strict performance of any term or condition of the contract or to exercise or delay the exercise of any right or remedy provided in the contract, or by law, or the City's acceptance of and payment for materials or services, shall not release the Contractor from any responsibilities or obligations imposed by this contract or by law, and shall not be deemed a waiver of any right of the City to insist upon the strict performance of the Contract.
15. **INDEMNIFICATION:** To the fullest extent permitted by law, the Contractor shall defend, indemnify and hold harmless the City, its agents, representatives, officers, directors, officials and employees from and against all claims, damages, losses and expenses (including but not limited to attorney fees, court costs, and the cost of appellate proceedings), relating to, arising out of, or alleged to have resulted from the acts, errors, mistakes, omissions, work or services of the Contractor, its employees, agents, or any tier of subcontractors in the performance of this Contract. Contractor's duty to defend, hold harmless and indemnify the City, its agents, representatives, officers, directors, officials and employees shall arise in connection with any claim, damage, loss or expense that is attributable to bodily injury, sickness, disease, death, or injury to, impairment, or destruction of property including loss of use resulting therefrom, caused by any acts, errors, mistakes, omissions, work or services in the performance of this Contract including any employee of the Contractor or any tier of subcontractor or any other person for whose acts, errors, mistakes, omissions, work or services the Contractor may be legally liable.
- The amount and type of insurance coverage requirements set forth herein will in no way be construed as limiting the scope of the indemnity in this paragraph.
16. **OVERCHARGES BY ANTITRUST VIOLATIONS:** The City maintains that, in practice, overcharges resulting from antitrust violations are borne by the purchaser. Therefore, to the extent permitted by law, the Contractor hereby assigns to the City any and all claims for such overcharges as to the goods and services used to fulfill the Contract.
17. **FORCE MAJEURE:** Except for payment for sums due, neither party shall be liable to the other nor deemed in default under this Contract if and to the extent that such party's performance of this Contract is prevented by reason of force Majeure. The term "*force majeure*" means an occurrence that is beyond the control of the party affected and occurs without its fault or negligence. Without limiting the foregoing, force majeure includes acts of God; acts of the public enemy; war; acts of terror, hate crimes affecting public order; riots; strikes; mobilization; labor disputes; civil disorders; fire; floods; lockouts, injunctions-intervention-acts, or failures or refusals to act by government authority; events or obstacles resulting from a governmental authority's response to the foregoing; and other similar occurrences beyond the control of the party declaring force majeure which such party is unable to prevent by exercising reasonable diligence. The force majeure shall be deemed to commence when the party declaring force majeure notifies the other party of the existence of the force majeure and shall be deemed to continue as long as the results or effects of the force majeure prevent the party from resuming performance in accordance with this Contract.

Force majeure shall not include the following occurrences:

- a. Late delivery of equipment or materials caused by congestion at a manufacturer's plant or elsewhere, an oversold condition of the market, inefficiencies, or similar occurrences.

- b. Late performance by a subcontractor unless the delay arises out of a force majeure occurrence in accordance with this Force Majeure term and Condition.

Any delay or failure in performance by either party hereto shall not constitute default hereunder or give rise to any claim for damages or loss of anticipated profits if, and to the extent that such delay or failure is caused by force majeure. If either party is delayed at any time in the progress of the work by force majeure, then the delayed party shall notify the other party in writing of such delay within forty-eight (48) hours commencement thereof and shall specify the causes of such delay in such notice. Such notice shall be hand delivered or mailed *Certified-Return Receipt* and shall make a specific reference to this article, thereby invoking its provisions. The delayed party shall cause such delay to cease as soon as practicable and shall notify the other party in writing. The time of completion shall be extended by contract modification for a period of time equal to the time that the results or effects of such delay prevent the delayed party from performing in accordance with this contract.

18. **RIGHT TO ASSURANCE:** Whenever one party to this contract in good faith has reason to question the other party's intent to perform he may demand that the other party give a written assurance of this intent to perform. In the event that a demand is made and no written assurance is given within five (5) days, the demanding party may treat this failure as an anticipatory repudiation of the Contract.
19. **RIGHT TO AUDIT RECORDS:** The City may, at reasonable times and places, audit the books and records of any Contractor as related to any contract held with the City. This right to audit also empowers the City to inspect the papers of any Contractor or Subcontractor employee who works on this contract to ensure that the Contractor or Subcontractor is complying with the Contractor Immigration Warranty made pursuant to Paragraph 3 above.
20. **RIGHT TO INSPECT PLANT:** The City may, at reasonable times, inspect the part of the plant or place of business of a Contractor or Subcontractor which is related to the performance of any contract as awarded or to be awarded.
21. **WARRANTIES:** Contractor warrants that all material, service or construction delivered under this contract shall conform to the specifications of this contract. Unless otherwise stated in Contractor's response, the City is responsible for selecting items, their use, and the results obtained from any other items used with the items furnished under this contract. Mere receipt of shipment of the material/service specified and any inspection incidental thereto by the City shall not alter or affect the obligations of the Contractor or the rights of the City under the foregoing warranties. Additional warranty requirements may be set forth in the solicitation.
22. **INSPECTION:** All material and/or services are subject to final inspection and acceptance by the City. Materials and/or services failing to conform to the specifications of this Contract will be held at Contractor's risk and may be returned to the Contractor. If so returned, all costs are the responsibility of the Contractor. The City may elect to do any or all:
- Waive the non-conformance.
 - Stop the work immediately.
 - Bring material into compliance.
- This shall be accomplished by a written determination for the City.
23. **TITLE AND RISK OF LOSS:** The title and risk of loss of material and/or service shall not pass to the City until the City actually receives the material or service at the point of delivery, unless otherwise provided within this Contract.

25. **DEFAULT IN ONE INSTALLMENT TO CONSTITUTE TOTAL BREACH:** Contractor shall deliver conforming materials in each installment of lot of this Contract and may not substitute nonconforming materials. Delivery of nonconforming materials or a default of any nature, at the option of the City, shall constitute a breach of the Contract as a whole.

LambTech Air Testing Proposal

Project Understanding

LambTech has performed thousands of projects for the last 21 years that are identical to this request for fenceline and odor control system evaluations. Maricopa County AQMD, The City of Phoenix, and LambTech worked together in the early 1990's to establish the testing criteria requested in this proposal at the 23rd Avenue WWTP in Phoenix. The fenceline walk testing is still being done on a quarterly basis at 23rd Ave. WWTP in the City of Phoenix. LambTech also performs identical testing for the City of Glendale at the West Area WRF and Arrowhead Ranch WRF; for Liberty Water in Litchfield Park at the Palm Valley WRF and in Pinal County at the Gold Canyon WRF; for the City of Scottsdale at the Scottsdale Water Campus and at Gainey Ranch WRF; for Severn Trent Services at the Ocotillo WRF in Chandler and the Neely WRF in Gilbert; and for Pacific Environmental Resources Corp. for the Sundance WRF in Goodyear and at SPA-2 WRF in Surprise, and a number of other wastewater facilities for the City of Goodyear, City of Surprise, City of El Mirage and the City of Tempe. LambTech has also performed this exact type of testing for the City of Peoria for the last five years at each of the facilities named in this RFQ so the company has detailed knowledge of the project requirements.

Method Approach

LambTech will perform annual monitoring at the Beardsley Road WRF, the Jomax Road WRF, the Butler Drive WRF, and at the 99th Ave. Butler Drive Influent Pump Station annually starting at the request of the City. LambTech will monitor the fenceline of each facility using a hand-held Jerome 631X part-per-billion hydrogen sulfide analyzer, sampling every 50 feet around the perimeter of each water reclamation facility. At the pump station, four sides (North, South, East, and West) will be monitored for thirty minutes each to collect a 30-minute average on each fenceline to include in the final report.

The Jerome 631X hydrogen sulfide analyzer will be checked for calibration using a certified 10-PPM hydrogen sulfide gas source prior to, and after the studies are complete. An Excel spreadsheet will be part of the report, detailing the concentrations found at each location, and an average for each fenceline will be recorded in the report to satisfy Maricopa County's maximum allowable emissions limit for hydrogen sulfide of 0.030 PPM over a 30-minute average.

LambTech also will perform a scrubber/odor control evaluation on each odor control system at each facility for a two-hour period using the same Jerome 631X hydrogen sulfide analyzer. Each odor control system will be evaluated for removal efficiencies by testing the inlet and outlet hydrogen sulfide concentrations of each system to determine each system's average removal efficiency every fifteen minutes. All pertinent operating parameters will be recorded including: pH, ORP, make-up water rates, recirculation pump discharge pressures, and packing and mist eliminator pressure drops. Airflow rates will be evaluated on each system and included as part of the final report. Three copies of the final report will be submitted to the City within ten working days of project completion that detail fenceline concentrations, scrubber removal efficiencies, and all scrubber operating parameters, along with recommendations on improving the scrubbers' operation, or on resolving any excessive odor/hydrogen sulfide emissions.

A flyer and a list of references is included in this proposal outlining the extensive experience LambTech has in testing and consulting for odor and hydrogen sulfide emissions control in the valley and across the country.
