Project Narrative

The Glendale Public Library intends to use this year's State Grants-in-Aid funding primarily to fund professional development and training opportunities for library staff. With the generous funding from the State, GPL staff will be able to attend such conferences as AzLA, ALA, PLA, Internet Librarian, and the ALSC National Institute among other continuing educational opportunities. Funding not used for professional development will be put toward equipment, furniture, materials, programming supplies, and hiring program performers to provide additional public programming.

Professional development is an area of importance for the Glendale Public Library, especially given our current staffing levels. We utilize all staff at all public service desks which requires staff to be knowledgeable in multiple areas. With State Grants-in-Aid funding, we can ensure that staff are being exposed to the newest ideas in youth services, readers' advisory, library technology, program planning and evaluation of customer service to our patrons. Conferences, webinars and other educational opportunities keep staff energized and engaged, ready to implement new ideas and keep the library connected to Glendale residents and our community. The need for such education is great; but like many libraries, the allotted budget for such training is stretched. With SGIA funding, multiple staff members will get to participate in training.

Budget Justification

Secondly, the funding provides a mean for the library to purchase supplies and equipment that will benefit our patrons. Newer furniture, vibrant programming and updated equipment will continue to make the library an appealing destination for our community.

Thank you for giving libraries this funding to meet the ever-changing librarian profession and for continuing to provide critically-needed funding.
