Conceptual Design and Analysis for a Western Area Library Branch
CITY OF GLENDALE, ARIZONA
Project No. 151616

PROJECT

BACKGROUND

The City of Glendale currently has three library facilities at which a full-range of library services and programs are offered to all residents and patrons. The 33,000 square foot Foothills Branch Library was opened in July 1999 to serve the area from Pinnacle Peak to Greenway, 51st – to 83rd/Loop 101; the 65,000 square foot Main Library was opened in June 1987 to serve the area from Greenway – to Northern, 43rd/51st – 67th Avenues and also serves as a city-wide central library; the Velma Teague Branch Library was opened in 1969 to serve the area from Northern – Camelback, 43rd – 67th. In FY 14-15, the Glendale Public Library System served a total of 640,246 patrons, circulated 1,671,534 items, including eBooks and was open to the public 111 hours per week (Main is open 43 hours per week; Foothills = 36 hours per week and Velma Teague is open 35). Through its use of technology, the Glendale Public Library also offers a 24-hour virtual accessibility, seven days a week, to any library card holder with access to a smart phone, PC, or tablet.

Due to the growth of the western area and an interest to provide library services to this portion of the community, the City began planning for the construction of a fourth branch library that could be located in Heroes Regional Park, located at Bethany Home Road and 83rd Avenue, or the City of Glendale Media Center, located in the Renaissance Hotel at 9495 W. Coyotes Boulevard. The service area for this branch would be the area of 67th Avenue to Luke Air Force Base, Northern Avenue – Camelback Road, in which approximately 40,000 persons reside. In 1998, the City Council authorized the purchase of an 88.6 acre parcel of land that is centrally located in this area, with the intent to fully develop a regional park, including a recreation center, an aquatics center, and a new library facility.

On October 20, 2015, the City Council provided direction to city staff to conduct a series of public outreach sessions to assist in the development of conceptual drawings for the location of a Western Area Branch Library at the following two possible options:

1. **Media Center:** This concept would be to locate a Western Area Branch Library on the vacant third floor (approximately 7500 sq. ft.) of the existing Glendale Media Center, located in the Renaissance Hotel. To do so would cost approximately, \$890,000 in tenant improvements and materials.
2. **Pre-fabricated/Modular Buildings at Heroes Regional Park:** This concept would cost approximately \$1.75 - \$2 million and result in the location of a 7,500 – 8,000 sq. ft. pre-fabricated structure located directly across from the existing X-Court and splash pad/playground area of Heroes Regional Park. It is requested that the use of this technology be done so in a manner that can be “phased” over time, as resources permit.

Exhibit B defines the detailed Scope of Work for the Conceptual Design and Analysis services for a Western Area Library Branch.
